## WHO WE ARE

KomKonsult Trading is a leading procurement company specializing in providing high-quality engineering supplies, cutting-edge aerospace and robotics systems, and comprehensive R&D and reverse engineering solutions. With a rich history of serving the Defense Forces, Government Sector, and Oil & Gas Organizations, we have earned a reputation for excellence, reliability, and innovation. Our dedicated team of experts brings a wealth of experience, ensuring that our clients receive the best products and services tailored to their unique requirements.

## OUR NATURE OF BUSINESS

As a specialized procurement firm, our primary focus is on delivering top-notch engineering supplies, aerospace & robotics systems, and advanced research and development solutions. Our extensive network of trusted suppliers and manufacturers enables us to source a wide range of engineering materials and equipment for defense, government, and oil & gas applications. Additionally, we specialize in providing state-of-the-art aerospace and robotics systems that drive technological advancements in various industries.

## ABOUT US

We have immense experience in procurement, planning, scheduling, cost control, quality assurance, field inspections and expediting services. Our strong sourcing skills enhance the analysis, selection, negotiation and evaluation of suppliers.

### We offer procurement services that include:

- ✓ Preparation of request for quotation
- ✓ Quotation evaluations
- ✓ Issuance of purchase orders and invoices including payment analysis.
- ✓ Act as an "Agent" for the client on fixed contract basis.
- ✓ Evaluation and selection of vendors
- ✓ Introduction of manufacturers for specific projects

Our global locations allow us to offer the very best pricing from around the world. We have a number of strong associations and representation agreements, with many leading manufacturers and distributors in the USA and Europe. Kom Konsult Trading operates a policy of supplying only brand new and genuine products purchased directly from the original manufacturer only. Project Management services offered by Kom Konsult Trading enable clients to deal with one individual throughout all phases of a project. We employ experienced project managers skilled in developing, planning, executing and controlling a wide range of projects. Our project management team provides overall service in:

- ✓ Project scope and definition planning
- ✓ Supervision of engineering and design
- ✓ Client and project team liaison
- ✓ Preliminary engineering
- ✓ Project feasibility and justification
- ✓ Capital cost estimating
- ✓ Project Control and reporting

## ABOUT US

Kom Konsult Trading is a global engineering company specialising in the procurement of spare parts and equipment used in the Oil, Gas, Power and Petrochemical Industries.

Our comprehensive range of services provide innovative, effective, strategic and cost efficient solutions to all our clients' technical and management needs. We combine technology, experience, and an abiding commitment to teamwork to meet the needs of our clients.

We provide full-service engineering, construction, operations and maintenance support to clients in the Oil, Gas, Petrochemical and Power sectors. The support package we offer for our clients allows our customers to focus on their core competencies, enabling them to maximize their efficiency.

Whether our clients are involved in Oil Production, Drilling, Petrochemical processing or Gas treatment, we can help them to source their requested items at the best prices and with the shortest delivery times.

We are committed to source and deliver items at the most competitive prices and the shortest possible time, as we want repeated business. A number of our staff have been involved in the Oil & Gas sector for over 20 years, and have an extensive background in dealing with the vast range of items used in this industry.

Our global experience gives us the advantage to offer our expertise in all continents around the globe, including Africa, Asia and the Americas. We have a number of local offices with our EMEA office located in the UK.

## OUR MISION

At KomKonsult Trading, our mission is to be the premier procurement partner for our esteemed clients in the Defense Forces, Government Sector, and Oil & Gas Organizations. We are dedicated to providing superior products and services that empower our clients to excel in their respective fields. With a focus on innovation, efficiency, and customer satisfaction, we strive to be at the forefront of technological advancements and contribute significantly to the growth and success of our clients and partners.

## OUR VISION

Our vision is to redefine the procurement landscape by delivering cutting-edge engineering supplies, aerospace & robotics systems, and research and development solutions that set new industry standards. We envision KomKonsult Trading becoming synonymous with reliability, excellence, and transformative technology, shaping the future of defense, government, and oil & gas sectors through our exceptional offerings.

## OUR VALUES

**1****EXCELLENCE:**

We are committed to excellence in all aspects of our operations. From sourcing high-quality products to delivering exceptional customer service, we strive for excellence and continuous improvement.

**INNOVATION:**

Innovation is the driving force behind our success. We embrace technological advancements and seek out groundbreaking solutions to address our clients' challenges effectively.

**2****3****INTEGRITY:**

Integrity is the cornerstone of our business. We operate with the utmost transparency, honesty, and ethical standards, fostering trust and long-term partnerships with our clients and suppliers.

**CUSTOMER-CENTRIC:**

Our clients are our top priority. We listen to their needs, understand their goals, and provide tailored solutions that exceed their expectations, ensuring their success and satisfaction.

**4****5****COLLABORATION:**

We believe in the power of collaboration. By working closely with our clients, partners, and suppliers, we foster strong relationships that lead to mutual growth and success.

## OUR EXPERTISE

Industrial Instrumentation, Automation/PLC Controls, Pumps, Compressors, SS & Duplex Pipes & Fittings, Valves, Filters, Chemicals, Lubricants & Tools for Process Industry application.

## AREAS OF EXPERTISE

✓ Procurement and Logistics

✓ Life Support

✓ Oil & Gas Rigs & Platform

✓ Refineries

✓ Pipelines
